PSO 7.Students will learn relevant Advanced accounting career skills, applying both quantitative and qualitative knowledge to their future careers in business.

PSO 8.To enable students to create a software package using VB

PSO 9.On successful completion of this subject the students have the programming ability in C Language.

Course Outcome(COs)

Semester – I

English Language- FC 101/1

- C 01:** In this course students will read and understand about the rich classical texts from Indian literatures written in Hindi as well as Indian literatures written in Urdu, in translated versions
- C 02:** Upon the completion of course the students will be able trace the nature of influence that the classical texts have on modern English literatures
- C 03:** Know about various innovative ways of using English language in verbal and non-verbal communications.
- C 04:** Write clearly, effectively, and creatively, and adjust writing style appropriately to the content, the context, and nature of the subject.
- C 05:** Think about the relation between language and literature

Development of Entrepreneurship- FC 101/2

- C 01:** In this course students will learn and understand the meaning of entrepreneurship, types and functions of an entrepreneur, sequenced planning and guiding capacity explanation.
- C 02:** Upon the completion of the course the students will be able to discern distinct entrepreneurial traits
- C 03:** They will understand the systematic process to select and screen a business idea
- C 04:** Students will be able to design strategies for successful implementation of ideas
- C 05:** They will be able to prepare and analyse Project Report and interpret the same.

Financial Accounting BCM-102

- C 01:** After completion of the programme, the students should be able to apply knowledge and skills in the Accounting and Financial Service sector learning basics of accounting
- C 02:** The subject will help students in preparing and presentation of the financial statements of partnership firms.
- C 03:** The students will be able to calculate and have a practical approach regarding the valuation of the goodwill, preparation of Journal, Preparation of Branch Accounts and Departmental Accounts.
- C 04:** They will have basic knowledge regarding the Royalty and Insolvency Accounts.

Business Law BCM-103

- C 01:** This course intends to provide a basic understanding of the mechanisms of business contract With reference to various provisions of the related acts.
- C 02:** The course gives the knowledge regarding the provisions contained in the Contract Act 1872, Indian Partnership Act 1932, The Consumer Protection Act 1986 and Foreign Exchange Management Act 2000.
- C 03:** Upon the completion of the subject the students will be able to develop the basic understanding of the regulatory framework of various Business Laws.

PC Package BCM-104/2

- C 01:** Upon successful completion of the program students will be able to demonstrate a basic understanding of computer hardware and software.
- C 02:** The subject develops in its diverse student population the essential qualities necessary for success in a rapidly changing technological environment.
- C 03:** Students learn critical and analytical thinking, problem solving skills, and to effectively communicate ideas.
- C 04:** Apply the skills that are the focus of this program to business scenarios.

Semester – II

Hindi SanrachnaFC 201/1

- C 01:** पाठ्यक्रम पूरा करने के बाद, एक शिक्षार्थी को हिंदी भाषा के बारे में एक उन्नत समझ होगी
- C 02:** पाठ्यक्रम पूरा करने के बाद, लेख लिखने के साथ-साथ अधिग्रहण करने के लिए एक शिक्षार्थी, वक्तृत्व में और हिंदी भाषा में अध्ययन में निपुणता होगी
- C 03:** हिंदी विद्वानों को बढ़ावा देने के लिए और उन्हें प्रासंगिक लिखने और अनुवाद करने के लिए प्रोत्साहित करने के लिए
- C 04:** छात्रों को उनकी समृद्ध सांस्कृतिक, नैतिक, साहित्यिक और वैज्ञानिक विरासत और के लिए जागृत करना

Environment BCM-201/2

- C 01:** The subject facilitate the students' understanding of complex environmental issues from a problem-oriented, interdisciplinary perspective
- C 02:** Understand environmental problems and ways of addressing them, including interactions across local to global scales.

- C 03:** Upon the completion of the course the students will be able to appreciate the ethical, cross-cultural, context of environmental issues and the links between human and natural systems.
- C 04:** They will reflect critically about their roles and identities as citizens, consumers and environmental actors in a complex, interconnected world.

Business Mathematics BCM-202

- C 01:** The subject facilitates the students to understand basics of integration and its uses in the areas of mathematics, independently solving of business problems.
- C 02:** Upon the completion of the course the students will be able to use percentages, ratios and proportions, Elementary Matrices, Logarithms and anti-Logarithms for business applications.
- C 03:** They will be able to use simple and compound interest to do business calculations such as value of money, maturity value, promissory notes, present value, and future value and be able to differentiate which math method should be used for different problems.

Business Organisation and Communication BCM-203

- C 01:** Upon the completion of the course the student will be able to understand the various forms of the business organizations along with their important features and legal rules
- C 02:** The course aims at developing & improving various skills like communication, reading, listing, note making, persuasive speaking, body language & gestures.
- C 03:** The students will be able to make effective and impressive communication in ethical manner.
- C 04:** They will be able to give better presentation and communication using proper body language.
- C 05:** The course aims at imparting knowledge about the various types of industries and the process involved for the successful production process.

PC Software And Data Processions BCM-204/2

- C 01:** Upon successful completion of the program students will be able to demonstrate a basic understanding of computer hardware and software.
- C 02:** The subject develops in its diverse student population the essential qualities necessary for success in a rapidly changing technological environment.
- C 03:** Students learn critical and analytical thinking, problem solving skills, and to effectively communicate ideas.
- C 04:** Apply the skills that are the focus of this program to business scenarios.

Semester – III

Values & Spirituality FC 301/1

- C 01:** The course aims to teach and inculcate the importance of value based living among students and give them a deeper understanding about the purpose of life.
- C 02:** Upon the completion of the course the students will understand the importance of value based living.
- C 03:** Students will understand and start applying the essential steps to become good leaders and emerge as responsible citizens with clear conviction to practice values and ethics in life.
- C 04:** Students will become value based professionals and will contribute in building a healthy nation.

Environment Science FC 301/2

- C 01:** The course aims at providing students with a broad interdisciplinary liberal arts framework for understanding the relationship between humans and their environment;
- C 02:** Students will contribute to and facilitate interdisciplinary research and problem solving, through independent and collaborative work
- C 03:** Upon the completion of the course students will be able to demonstrate an integrative approach to environmental issues with a focus on sustainability;
- C 04:** Communicate complex environmental information to both technical and non-technical audiences;
- C 05:** Reflect critically on their roles, responsibilities, and identities as citizens, consumers and environmental actors in a complex, interconnected world.

Corporate Accounting BCM-302

- C 01:** The main objectives of the course is to enable the students to acquire complete basic and intermediary practical knowledge of corporate accounting with the purpose of giving them competitive edge and making them self -dependant and easily employable.
- C 02:** Upon the completion of the course the students will be able to apply knowledge and skills in accounting function respond to the global outlook on opportunities and challenges in Accounting and Financial Service sector.
- C 03:** This subject will help the students in understanding the method of presentation of the financial statement of a Joint Stocks company as per the Companies Act 2013 and help them to calculate the value of goodwill and shares.

- C 04:** To assign the practical approach to the students regarding the valuation of the goodwill, valuation of the shares, financial statements of a public utility concerns, holding company, subsidiary company and accounting as per AS 14.

Principles of Statistics BCM-303

- C 01:** Describe and discuss the key terminology, concepts tools and techniques used in business statistical analysis
- C 02:** Understand and critically discuss the issues surrounding sampling and significance
- C 03:** Students will be able to develop the students ability to deal with numerical and quantitative issues in business
- C 04:** Discuss critically the uses and limitations of statistical analysis
- C 05:** To have a proper understanding of Statistical applications in Economics and Management.

Desk Top Publishing (DTP) and MultiMedia BCM - 304/2

- C 01:** Upon successful completion of the program students will be able to demonstrate a basic understanding of computer software.
- C 02:** The subject develops in its diverse student population the essential qualities necessary for success in a rapidly changing technological environment.
- C 03:** Students learn critical and analytical thinking, problem solving skills, and to effectively communicate ideas.
- C 04:** Apply the skills that are the focus of this program to business scenarios.

Semester – IV

English Language FC 401/1

- C 03:** On successful completion of the Programme, the students will be accurate both in oral and written communication as they will be strong in Writing skills and its usage.
- C 04:** They can express a thorough command of English and its linguistic Structures.

Development of Entrepreneurship FC 401/2

- C 01:** The students develop and can systematically apply an entrepreneurial way of thinking that will allow them to identify and create business opportunities that may be commercialized successfully.

- C 02:** After the completion of the course, the students will be able to have the ability to discern distinct entrepreneurial traits
- C 03:** Know the parameters to assess opportunities and constraints for new business ideas
- C 04:** Understand the systematic process to select and screen a business idea and design strategies for successful implementation of ideas
- C 05:** The students will be able to write a business plan

CostAccounting BCM-402

- C 01:** This course enables the student to thoroughly understand the theory and practice of cost accounting for decision making.
- C 02:** Upon the completion of the course the students will be able to define the costs and their impact on value creation in the companies
- C 03:** The students will gain a working knowledge of the principles and process of cost accounting and express the place and role of cost sheet in the modern economic environment
- C 04:** Interpret the use of the process and operating cost
- C 05:** Develop the skills in the cost accounting applications.

Principles of Management BCM-403

- C 01:** The course aims at helping the students gain understanding of the functions and responsibilities of managers and provide them tools and techniques to be used in the performance of the managerial job.
- C 02:** To help the students to develop cognizance of the importance of management principles.
- C 03:** On completion of this course, the students will be able to demonstrate the roles, skills and functions of management.
- C 04:** Analyze effective application of PPM knowledge to diagnose and solve organizational problems and develop optimal managerial decisions.
- C 05:** Understand the complexities associated with management of human resources in the organizations and integrate the learning in handling these complexities.

Internet and E-Commerce BCM-404/2

- C 01:** Upon successful completion the student will be able to demonstrate an understanding of the foundations and importance of E-commerce
- C 02:** Describe the key features of Internet, Intranets and Extranets and explain how they relate to each other.

- C 03:** Students will be able to describe Internet trading relationships including Business to Consumer, Business-to-Business, Intra-organizational.
- C 04:** A study about the infrastructure for E-commerce

Semester – V

Values & Spirituality FC 501/1

- C 01:** The course aims to teach and inculcate the importance of value based living among students and give them a deeper understanding about the purpose of life.
- C 02:** Upon the completion of the course the students will understand the importance of value based living.
- C 03:** Students will understand and start applying the essential steps to become good leaders and emerge as responsible citizens with clear conviction to practice values and ethics in life.
- C 04:** Students will become value based professionals and will contribute in building a healthy nation.

Basic Computer Information Technology-I FC 501/2

- C 01:** After studying this course the students will understand the fundamental hardware components that make up a computer's hardware and the role of each of these components.
- C 02:** Have an understanding about an operating system and an application program, and what each is used for in a computer
- C 03:** Demonstrate a basic understanding of computer hardware and software.
- C 04:** Students will apply the computer concepts and skills learned to solve business problems
- C 05:** Students will understand the basic concepts and terminology related to computer technology

Income Tax Law & Practice BCM-502

- C 01:** The course aims at making the students aware about provisions of direct tax with regard to IT Act, 1961 and IT Rules, 1962
- C 02:** To understand the provisions and procedures to compute total income under five heads of income i.e. salaries, house property, profits & gains from business & profession, capital gains and other sources.
- C 03:** To understand the provision and procedures for clubbing & aggregation of incomes and set-off & carry forward of losses.
- C 04:** Upon the completion of the course the students will be able to define the procedures of direct tax assessment.

C 05: They will be able to compute total income and define tax complications and structure

Management Accounting BCM-503

C 01: This course provides students with an understanding of management accounting concepts related to the management functions of planning, control, and decision making.

C 02: Upon successful completion, students will have the knowledge and skills to critically analyse and provide recommendations to improve the operations of organisations through the application of management accounting techniques;

C 03: Demonstrate mastery of costing systems, cost management systems, budgeting systems and performance measurement systems

C 04: Evaluate the costs and benefits of different conventional and contemporary costing systems;

C 05: Evaluate complex ideas and tolerate ambiguity in managerial and organisational problem-solving

RDBMS & VBBCM-504/2

C 01: This course offers lecture, laboratory, and online interaction to provide a foundation in data management concepts and database systems

C 02: They will be able describe, define and apply the major components of the relational database model to database design;

C03: Learn and apply the Structured Query Language (SQL) for database definition and manipulation;

C 04: Students will learn program design, the fundamentals of event driven objectoriented programming, arrays, validation of user input, and how to create menu driven programs and multiple form applications.

C 05: The student will demonstrate knowledge of program design by describing the difference between a console program and a Graphical User Interface (GUI)

Semester – VI

Hindi FC 601/1

C 01: पाठ्यक्रम पूरा करने के बाद, एक शिक्षार्थी को हिंदी भाषा के बारे में एक उन्नत समझ होगी

C 02: पाठ्यक्रम पूरा करने के बाद, लेख लिखने के साथ-साथ अधिग्रहण करने के लिए एक शिक्षार्थी, वक्तृत्व में और हिंदी भाषा में अध्ययन में निपुणता होगी

C 03: हिंदी विद्वानों को बढ़ावा देने के लिए और उन्हें प्रासंगिक लिखने और अनुवाद करने के लिए प्रोत्साहित करने के लिए

- C 04: छात्रोंकोउनकीसमृद्धसांस्कृतिक, नैतिक,
साहित्यिकऔरवैज्ञानिकविरासतऔरकेलिएजागृतकरना

Basic Computer Information Technology-IIFC 601/2

- C 01: After studying this course the students will understand the fundamental hardware components that make up a computer's hardware and the role of each of these components.
- C 02: Have an understanding about the various programmes in Ms Office like Ms Word, Ms Powerpoint and Ms Excel.
- C 03: Demonstrate a basic understanding of computer hardware and software.
- C 04: Students will apply the computer concepts and skills learned to solve business problems
- C 05: Students will understand the basic concepts and terminology related to computer technology

Indirect Tax BCM-602

- C 01: The course aims to help students to comprehend the basic principles of the laws governing Indirect taxes
- C 02: It Prepares students for technical training in taxation and offers a strong base in the field of Goods and Service Tax, Custom and Excise.
- C 03: The syllabus aims to make the student understand the basic principles underlying the Indirect Taxation Statutes (with reference to Central Excise Act, Customs Act, Service Tax, Value Added Tax, Central Sales Tax)
- C 04: Identify and analyze the procedural aspects under different applicable statutes related to indirect taxation
- C05: To provide an in depth study of the various provisions of indirect taxation laws and their impact on business decision-making

Auditing BCM-603

- C 01: Student will understand the audit process from the engagement planning stage through completion of the audit, as well as the rendering of an audit opinion via the various report options.
- C 02: Student will understand auditors' legal liabilities, and be able to apply case law in making a judgment whether auditors might be liable to certain parties;
- C 03: Student will understand to discuss the need for an independent or external audit and describe briefly the development of the role of the assurance provider in modern business society;
- C 04: Students will learn to Determine the appropriate audit report for a given audit situation.

C 05: Students will learn to explain methods used to obtain an understanding of internal control

Web Design BCM-604/2

C 01: The course aims at developing the understanding of the principles of creating an effective web page, including an in-depth consideration of information architecture.

C 02: After Completion of this course the students will develop skills in analyzing the usability of a web site.

C 03: Students will learn and use the language of the web: HTML

C 04: Learn techniques of responsive web design, including media queries.

C 05: Understand how to plan and conduct user research related to web usability.

B. Com (Hons.)

Programme Outcome (POs)

- | | |
|------|---|
| PO1- | Gain conceptual knowledge in various disciplines of Commerce, Finance, Management and Information Technology which can be applied in real life situation. |
| PO2- | Acquire Global Competencies through comprehensive Curricular and Co-Curricular programs with practical skills and also enable the students face modern day challenges in Commerce and Business. |
| PO3- | Apply critical thinking which improves cognitive skills and logical decision making as business leaders. |
| PO4- | Apply IT knowledge and skills for efficient and effective business processes and develop innovative methods for competitive advantage. |
| PO5- | Develops Communication Skills, Interpersonal and Soft Skills which enable the students interact in a more constructive and productive manner. |
| PO6- | Be an effective team leader to lead a group with conflicting personalities and move together towards a common goal. |
| PO7- | Equip entrepreneurship skills whether to develop own business idea from concept to reality or learn the tricks of managing an innovative business in today's environment. |

PO8-Develops Ethical, Moral and Human Values and contribute to the wellbeing of the society.

PO9- Develops an attitude to be a lifelong learner both personally and professionally to succeed in dynamic environment.

Programme Specific Outcomes (PSOs)

PSO1- Enables students for positions of leadership and take decisions at all levels of management.

PSO2- Students gain knowledge and analytical skills in the contemporary issues of Marketing and HR.

PSO3- Sensitize the students in the area of Research.

PSO4- Builds professional competence in students by imparting knowledge as per industry requirement.

Course Outcome(COs)

Semester – I

An Introduction to Statistics-HBC-101

CO 1: The course describes and discusses the key terminology, concepts tools and techniques used in business statistical analysis

CO 2: Students will learn to display data graphically and interpret graphs: histograms and box plots and apply various types of sampling methods to data collection.

CO 3: They will recognize, describe, and calculate the measures of the central tendency of data: mean, median, and mode.

CO 4: Discuss critically the uses and limitations of statistical analysis

CO 5: Students will have a proper understanding of Statistical applications in Economics and Management.

Business Communications-HBC-102

CO 1: The objectives of this course are to provide an overview of Prerequisites to Business Communication and to provide an outline to effective Organizational Communication.

CO 2: To impart the correct practices of the strategies of Effective Business writing.

CO 3: On completion of this course, the students will be able to distinguish among various levels of organizational communication and communication barriers

while developing an understanding of Communication as a process in an organization

CO 4: To draft effective business correspondence with brevity and clarity.

CO 5: The course will stimulate their Critical thinking by designing and developing clean and lucid writing skills

Business Organization -HBC-103

CO 1: This course explains the basic fundamentals of the business environment, organisational theory and marketing, including capacity to recognise and use relevant terminology.

CO 2: Analysis of the economic environment of organisations by means of the development of conceptual areas such as industry, human resources, consumer behaviour and production.

CO 3: On the completion of the course the students will be able to organise and present information to a satisfactory standard in oral presentations, essays and reports.

CO 4: Analyse and critically evaluate case studies in at least one of the topic areas, including its relevance to course topics.

CO 5: They will be able to contribute to a team project in an effective manner

An Introduction to Accounting-HBC-104

CO 1: On the completion of the course the students will be able to understand and apply the essential numerical skills required for bookkeeping and accounting

CO 2: Understand and explain the relationship between the accounting equation and double-entry bookkeeping

CO 3: Recording transactions in the appropriate ledger accounts using the double-entry bookkeeping system

CO 4: They will learn to balance off ledger accounts at the end of an accounting period

CO 5: They will be able to prepare a trial balance, balance sheet and a profit

Fundamentals of Economics HBC-105

CO 1: The purpose of this course is to help students learn the fundamentals of economics and they can apply these concepts to their lives and to the world in which they live.

CO 2: It improves the ability of the students to apply economic concepts to complex business realities as well as support them to forecast in the energy business.

CO 3: It helps in decision making in order to achieve desired economic goals. It enhances the capability of students to understand the prevailing economic and business policy in totality and its impact on the economy.

- CO 4:** Upon successful completion of the course a student will be able to explain the concepts of Microeconomics and its interrelations with Macroeconomics
- CO 5:** Associated the current economic phenomenon with existing theory and put their views on contemporary economic issues.
- CO 6:** To understand introductory microeconomic theory in a local, regional, national and international scenario.

Business Law-I HBC-106

- CO 1:** This course intends to provide a basic understanding of the mechanisms of business contract with reference to various provisions of the related acts.
- CO 2:** The course gives the knowledge regarding the provisions contained in the Contract Act 1872 and Sales of Goods Act 1932.
- CO 3:** Be able to engage critical thinking to predict outcomes and recommend appropriate action on issues relating to business associations, sale of goods etc.
- CO 4:** Upon the completion of the subject the students will be able to develop the basic understanding of the regulatory framework of various Business Laws.
- CO 5:** Be able to strategically negotiate contracts.

Semester – II

Financial Accounting for BusinessHBC-201

- CO 1:** The programme aims to provide students with a specialist education in accounting and provide practical as well as theoretical knowledge on the processes of accounting for hire-purchase, Inland and Foreign Branches etc.
- CO 2:** By the end of the programme, students will be able to Know and apply accounting and finance theory
- CO 3:** Explain and apply international accounting standards as required for accounting for branch accounts.
- CO 4:** Upon the completion of the subject the students will be able to critically evaluate financial statement information relating to royalty, voyage and accounting for insurance claims.
- CO 5:** Be able to work on advanced problems of partnership relating to dissolution, death and retirement and insolvency of partners.

Business EconomicsHBC-202

- CO 1:** On completion of this course, the students will be able to understand the concepts of cost, nature of production and its relationship to Business operations

- CO 2:** To help students understand and apply the various decision tools to understand the market structure.
- CO 3:** To apply marginal analysis to the “firm” under Perfect Competition and analyse the causes and consequences of Perfect Competition.
- CO 4:** To integrate the concept of price and output decisions of firms under various market structure.
- CO 5:** These concepts will help them to understand day-to-day business decisions being taken by different firms (in different industries) in lieu of consumer behaviour in economic, social and to an extent in ethical manner.

Business StatisticsHBC-203

- CO 1:** On completion of this course, the students will develop ability to deal with numerical and quantitative issues in business.
- CO 2:** The course aims at enabling the students the use of statistical, graphical and algebraic techniques wherever relevant.
- CO 3:** To have a proper understanding of Statistical applications in Economics and Management.
- CO 4:** Discuss critically the uses and limitations of statistical analysis
- CO 5:** Understand and critically discuss the issues surrounding Correlation Analysis, Regression, Time series and Statistical Decision Theory.

Business ManagementHBC-204

- CO 1:** At the completion of the Business Management the student will be able to apply conceptual learning skills in today's business environment.
- CO 2:** Evaluate organizational decisions with consideration of the political, legal and ethical aspects of business.
- CO 3:** Assess strengths, weaknesses, opportunities and threats of the business environment.
- CO 4:** Develop communication skills and learn about the barriers of communication
- CO 5:** Learn about the Behavioral Aspect of Management Control. Management in Perspective: Management of Strategic Change, Knowledge Management, Learning Organization, Managing Diversity, Corporate Governance.

Business Law-IIHBC-205

- CO 1:** On completion of this course, the students will be able to explain the concepts in business laws with respect to foreign trade, partnership etc.
- CO 2:** Analyse the principle of business laws and strategies adopted by firms to expand globally.
- CO 3:** Understand basic legal principles that govern Partnership Firms, Foreign Trade, Industrial Dispute etc.

- CO 4:** Be able to identify relevant legal issues and to understand, interpret and apply statutes and case law in the area of Partnership, Foreign Exchange.
- CO 5:** Be able to engage critical thinking to predict outcomes and recommend appropriate action on issues relating to Partnership, Foreign Exchange.

Introduction to ComputerHBC-206

- CO1:** After studying this course the students will understand the fundamental hardware components that make up a computer's hardware and the role of each of these components.
- CO2:** Have an understanding about the Information Systems, Networks, AIS, DSS etc.
- CO3:** Demonstrate a basic understanding of computer hardware and software.
- CO4:** Students will apply the computer concepts and skills learned to solve business problems
- CO5:** Students will understand the basic concepts and terminology related to computer technology

Semester – III

Business MathematicsHBC-301

- CO1:** Upon successful completion of this course, you will be able to demonstrate mastery of mathematical concepts that are foundational in business mathematics, including algebra of Matrices, Compound Interest, Differentiation and Integration and Linear Programming.
- CO2:** Apply the principles of Adjoin and Inverse of Matrices to solve relevant problems in financial applications.
- CO3:** Use the principles of compound interest to solve relevant problems in financial applications, for example, those involving annuities, loans and mortgages, bonds and sinking funds, and investment decisions.
- CO4:** Appreciate business mathematics concepts that are encountered in the real world, understand and be able to communicate the underlying business concepts and mathematics involved to help another person gain insight into the situation.

Corporate Accounting-IHBC-302

- CO1:** The main objective of this subject to provide the knowledge of companies, Shares and regulatory of companies. This subject describes the pattern of final accounts of the company.
- CO2:** It provides the knowledge of issue of shares and issue of debentures etc. It also provides the methods of valuation of goodwill and shares.

- CO3:** After the completion of the course, Students will learn about the journal entries of issue of shares and issue of debentures and know about the final accounts of the companies.
- CO4:** Work with Amalgamation and Internal Reconstruction in companies' accounts.
- CO5:** Learn about the concept of sources of redemption of debentures and redemption of preference

Cost AccountingHBC-303

- CO1:** The main objective of this subject to provide the knowledge of cost structure and cost elements and understand various techniques and methods of cost accounting.
- CO2:** After conclusion of study the students will be able to define the various components of total cost of a product i.e. direct & indirect cost and fixed & flexible cost
- CO3:** Determine various levels of material i.e. reorder level, minimum level, maximum level & EOQ for managing working capital.
- CO4:** Define the features of overhead or indirect cost of production and basis of allocation and apportionment.
- CO5:** Determine basis for computing tender price of a product and use cost-sheet to compute unit cost of product.

Company Law- IHBC-304

- CO1:** The main objectives of this subject to provide the knowledge of company, shares and kinds of the company. It also describes the features of private companies in India and development of Indian company act.
- CO2:** This subject also describes the memorandum of association and article of association. It also describes the prospectus and contents of prospectus
- CO3:** Know about the company law in the India and understand the use of the memorandum of association and article of association in a company, they also learn from this course.
- CO4:** Define the features and use of prospectus in a company.
- CO5:** Understand the relationship between company and its shareholders.

Principles of Marketing HBC-305

- C 01:** The basic objectives of this course are to provide you with a broad introduction to marketing concepts, help you understand the factors that influence marketing decisions, and focus attention on the vital role of marketing in today's global economy.
- C 02:** Upon completion of this course, students will be able to understand how organizations identify customers and their wants/needs.

- C 03:** To comprehend marketing decisions, based upon the combination of product, price, promotion, and distribution elements. In this course, you will study consumer and industrial markets and understand the value of the marketing mix in the marketing planning process.
- C 04:** Demonstrate an understanding of how marketing fits with the other business disciplines within an organization.
- C 05:** Demonstrate the ability to critically evaluate a marketing program from consumer and marketing practitioner viewpoints, including consideration of ethical implications.

Basics of Information TechnologyHBC-306

- C 01:** The basic objectives of this course are to provide you understanding of the concept of computer networks and communication system.
- C 02:** After the completion of the course, Students will be able to Learned the concept of computer networks and communication system.
- C 03:** Students will learn the concept of knowledge data discovery, Forms of Data Transmission, Modes of Data Transmission etc.
- C 04:** Demonstrate an understanding of Computer Networks within an organization.
- C 05:** Demonstrate the ability to make and present Presentation with Power- Point and use Accounting Packages like –Tally.

Semester – IV

Corporate Accounting-IIHBC-401

- C 01:** The main objective of this subject to provide the knowledge of companies, it includes Final accounts of Company, Banking Company accounts, Insurance Companies, Electricity Companies.
- C 02:** It also helps students to give practical knowledge of accounts and also describes the process of liquidation which is included in the company accounts.
- C 03:** After the completion of the course, Students will be able to know about the companies all accounts and learn about working format of companies.
- C 04:** Get the Knowledge of banking system and accounting techniques required for Banking Company.
- C 05:** Learn about the concept of working and accounting of Insurance Companies and Electricity companies.

Business EthicsHBC-402

- C 01:** The main objective of this subject to help the students to recognize legal and ethical issues when making business decisions

- C 02:** To gain an enhanced understanding of following ethical rules and ethical constraints and improve analytical problem solving and ethical decision making skills.
- C 03:** At the end of the course the students will be able Explore the relationship between ethics and business and the subsequent theories of justice and economics across different cultural traditions and – Explain the relationship between ethics, morals and values in the workplace.
- C 04:** Critically apply understanding of ethics of real–world contexts and gather and analyse information by way of undertaking a research project on a topic relevant to business ethics
- C 05:** Discuss the corporate governance system influence performance, including both the performance of individual firms and the allocation of capital within a country

Company Law –IIHBC-403

- C 01:** The main objectives of this subject to provide the knowledge of company, Company meetings, Kinds of Company Meetings, Directors in a company, Role of Company Secretary and the process of Winding Up of A company.
- C 02:** This subject also describes the Notice of a meeting, Requisites of Valid Meeting etc.
- C 03:** Upon the completion of the course the students will know about the company law in the India.
- C 04:** Explain about the provisions contained in law about the Directors: their appointment, qualification, removal etc.
- C 05:** Understand the role of a Company Secretary, their appointment, qualification, removal etc.

Money and BankingHBC-404

- C 01:** Students who satisfactorily complete Money & Banking will understand the role of money and banks in the broader economy.
- C 02:** Students will garner an understanding of the unique role of banks in the financial system.
- C 03:** Students will also learn the relevance of the Federal Reserve and related central banking topics
- C 04:** This course examines the financial system as a whole with emphasis on the interaction between banks, other financial intermediaries and financial markets, and the role played by central banks.
- C 05:** This course examines the financial system as a whole with emphasis on the interactionbetween banks, other financial intermediaries and financial markets, and the role played by central banks

Financial InstitutionsHBC-405

- C 01:** The main objectives of this subject to introduce students to the world of financial services
- C 02:** To enrich student's understanding of the fundamental concepts and working of financial service institutions
- C 03:** To equip students with the knowledge and skills necessary to become employable in the financial service industry.
- C 04:** To differentiate between fund based and fee based financial activities of the Indian financial system.
- C 05:** To acquire an understanding of various concepts related to leasing, hire purchase, factoring , bill discounting , Venture Capital and Merchant banking.

AuditingHBC-406

- C 01:** The main objectives of this subject to introduce students to the world of Auditing and the various terms associated with it.
- C 02:** On successful completion of this module, the learner will be able to evaluate the nature, purpose and scope of an audit and the legal, regulatory and ethical framework for auditing.
- C 03:** Demonstrate how the auditor obtains and accepts audit engagements and conducts a detailed investigation into an audit client to identify the risks of material misstatement (whether arising from fraud, error or other irregularities)
- C 04:** Devise an overall audit strategy, identify and formulate the audit tests and evidence required to meet the objectives of audit assignments
- C 05:** Analyse how subsequent events review and going concern assessment informs the conclusions in the auditor's report

Semester –V

Financial Management HBC-501

- C 01:** Finance Management course is designed to expose the student to the financial issues of determining the monetary resources needed by a business, the mix of these resources, the sources and uses of funds, the benefits, risks and costs associated with different types of resources and financing.
- C 02:** Upon successful completion of Financial Management, the student will be able to demonstrate an understanding of the overall role and importance of the finance function
- C 03:** Demonstrate the applicability of the concept of Financial Management to understand the managerial Decisions and Corporate Capital Structure
- C 04:** Apply the Leverage and EBIT EPS Analysis associates with Financial Data in the corporate and demonstrate how risk is assessed

C 05: Analyse the complexities associated with management of cost of funds in the capital Structure.

Investment AnalysisHBC-502

C 01: This course provides students with a solid foundation in theories and methods of pricing securities. It provides an overview of the operation of the securities markets and the mechanics of trading securities.

C 02: The fundamental valuation tools, including models of risk and return, discounted cash flows and relative valuation are examined and applied to the pricing of securities.

C 03: On successful completion of the course students will be able to examine the relationships between returns and risks.

C 04: Demonstrate knowledge and skills in the core investment concepts, collecting financial information from electronic databases and employing analytical tools to value financial securities.

C 05: Demonstrate critical thinking, analytical and problem solving skills in the context of investment theories and practices and Analyse and evaluate ordinary shares and fixed income securities.

Indian Economy: Growth and ManagementHBC-503

C 01: On completion of the course students will be able to develop ideas of the basic characteristics of Indian economy, its potential on available resources.

C 02: Develop ideas of the basic characteristics of Indian economy, its potential on natural resources.

C 03: Grasp the importance of planning undertaken by the government of India, have knowledge on the various objectives, failures and achievements as the foundation of the on-going planning and economic reforms taken by the government.

04: Understand Parallel Economy, identify and understand prices and inflation, analyze the various types of Industrial Licensing.

C 05: Understand the Working of Indian and World Economic scenario.

Retail Management & Sales ProcedureHBC-504

C 01: On completion of the course students will be able to understand the functions of retail business and various retail formats and retail channels.

C 02: Understand the difference between Retail and Manufacturing Supply Chain

C 03: Understand, key drivers of retail supply chain and how to select a retail store location

C 04: Analyze Retail Market and Financial Strategy including product pricing.

C 05: Understand and relate the supply chain activities which create the value in the organized retail industryIntegrate the various Supply Chain partners.

INCOME TAX HBC-505

- C 01:** The course aims to make students aware about provisions of direct tax with regard to IAct, 1961 and IT Rules, 1962.
- C 02:** To understand the provisions and procedures to compute total income under five heads of income i.e. salaries, house property, profits & gains from business & profession, capital gains and other sources.
- C 03:** To understand the various deductions to be made from gross total income U/s 80-C to 80-U in computing total income.
- C 04:** After conclusion of study the students will be able to define the procedures of direct tax assessment.

Insurance and Risk ManagementHBC-506

- C 01:** On completion of the course the student will be able to demonstrate knowledge of insurance contracts and provisions, and the features of property-liability insurance, life and health insurance, and employee benefit plans.
- C 02:** Demonstrate knowledge of the operation and management of insurance entities, and the economic implications of organizational design and structure.
- C 03:** Develop skills to facilitate insurance product cost and pricing, marketing, and distribution.
- C 04:** Examine the role of public policy including general insurance in personal financial planning and risk management.
- C 05:** Career opportunities with a subject Insurance & Risk Management in degree include Risk manager, Compliance officer, Claims manager, Actuary.

Semester – VI

Accounting for ManagersHBC-601

- C 01:** The objective of this course is to introduce complex problems of financial accounting such as valuation, measuring and reporting issues related to assets and liabilities and preparing the financial statements.
- C 02:** Students will demonstrate progressive learning in the elements of managerial decision making, including planning, directing and controlling activities in a business environment.
- C 03:** Students will learn relevant financial accounting career skills, applying both quantitative and qualitative knowledge to their future careers in business.
- C 04:** Students will complete a Project/ Written Assignment that integrates career orientation and or professional development skills.
- C 05:** Students will be able to demonstrate knowledge of various Managerial accounting issues related to Managerial Accounting within a global and or ethical framework

International BusinessHBC-602

- C 01:** Students will develop a market oriented, global, entrepreneurial and sustainable mind-set, see dynamic business environments as opportunities, and be able to make strategic marketing decisions in such environments.
- C 02:** Students will acquire **professional skills**, knowledge and relevant business skills to analyse challenges in the international marketing environment and develop and critically evaluate international marketing-related strategies and their implementation;
- C 03:** On successful completion of this course students will develop an understanding of major issues related to international marketing
- C04:** Have developed skills in researching and analyzing trends in global markets and in modern marketing practice
- C 05:** Be able to assess an organization's ability to enter and compete in international markets.

Income Tax Law and AdministrationHBC-603

- CO 1:** The course aims to help students to comprehend the basic principles of the laws governing Direct taxes.
- CO 2:** It Prepares students for technical training in taxation and offers a strong base in the field of Income Tax
- CO 3:** To understand the provisions and procedures to compute total income under five heads of income i.e. salaries, house property, profits & gains from business & profession, capital gains and other sources
- CO 4:** To understand the provision and procedures for clubbing & aggregation of incomes and set-off & carry forward of losses.

Human Resource ManagementHBC-604

- CO 1:** The course aims at enabling the students to understand the HR Management and system at various levels in general and in certain specific industries or organizations.
- CO 2:** To help the students focus on and analyse the issues and strategies required to select and develop manpower resources and develop relevant skills necessary for application in HR related issues.
- CO 3:** To Enable the students to integrate the understanding of various HR concepts along with the domain concept in order to take correct business decisions
- CO 4:** On completion of this course, the students will be able to integrate the knowledge of HR concepts to take correct business decisions.

Business EnvironmentHBC-605

- CO 1:** After learning this module, students will be able to understand the different environment in the business climate.

- CO 2:** To know the minor and major factors affecting the business in various streams.
- CO 3:** To know the different environment like, political, technological and economic environment in the business.
- CO 4:** To understand the various Economic Trends, Role of government in Indian Economy, Industrial Licensing etc.

Computer Programming HBC-606

- CO 1:** Upon completion of this course, students will acquire knowledge about computer programming language concepts.
- CO 2:** Ability to understand and use Computer programs, analyzes, and interprets the concept of pointers, declarations, initialization, operations on pointers and their usage
- CO 3:** Able to define data types and use them in simple data processing applications also he/she must be able to use the concept of array of structures. Student must be able to define union and enumeration user defined data types.
- CO 4:** Develop confidence for self-education and ability for life-long learning needed for Computer language.

Bachelors of Business Administration

Programme Outcome (POs)

- PO1- An Understanding of Business Functions
- PO2- Providing Global Perspectives
- PO3- Developing Critical and Analytical Thinking Abilities
- PO4- Interpersonal Skill Development
- PO5-
Creating Social Sensitivity and Understanding CSR, Ethical and Sustainable Business Practices Demonstrate sensitivity to social, ethical and sustainability issues
- PO6- Developing Entrepreneurship Acumen

Program Specific Outcomes (PSOs)

- PSO1- Acquiring Conceptual Clarity of Various Functional Areas
- PSO2- Ability to analyze various functional issues affecting the organization

PSO3- Demonstrating ability to evolve strategies for organizational benefits

PSO4- Analysis and interpretation of the data which is used in Decision Making

PSO5- Demonstrate the ability to develop models/frameworks to reflect critically on Specific business contexts

PSO6- Demonstrate Effectively Oral and Written Communication

PSO7- Demonstrate Ability to work in Groups

PSO8- Demonstrate understanding of social cues and contexts in social interaction

PSO9- Develop Ethical Practices and Imbibe Values for Better Corporate Governance.

PSO10- Understand ethical challenges and choices in a business setting

PSO11- Demonstrate understanding of sustainability related concerns in varied areas

PSO12- Analyze Global Environment and its Impact on Business

PSO13- Understand the ecosystem of startup in the country

PSO14- Demonstrate the ability to create business plans

Course Outcomes (COs)

BBA I Semester			
BBA-101	English Language	C01	Students will heighten their awareness of correct usage of English grammar in writing and speaking
		C02	Students will improve their speaking ability in English both in terms of fluency and comprehensibility
		C03	Students will give oral presentations and receive feedback on their performance
		C04	Students will improve their reading fluency skills through extensive reading
		C05	Students will enlarge their vocabulary by keeping a vocabulary journal
BBA-102	Business Communication	C01	To understand and demonstrate writing and speaking processes through invention, organization, drafting, revision, editing, and presentation.
		C02	To understand the importance of specifying audience and purpose and to select appropriate communication choices

		C04	To participate effectively in groups with emphasis on listening, critical and reflective thinking, and responding
		C01	To make fundamentally strong base for decision making skills by applying the concepts of economics.
		C02	Understand how markets and the price mechanism

BBA-103	Economics		function.
		C03	Describe the behavior of economic agents (consumers, firms, governments...)
		C04	Understand economic welfare and producer and consumer surplus.
BBA-104	Fundamentals of Accounting	C01	Apply generally accepted accounting principles, concepts and procedure's
		C02	Complete the accounting cycle for service and merchandising concerns
		C03	Prepare and analyze financial statements, including the Statement of Cash Flows
		C04	Apply time value of money -- future and present value
		C05	Identify why accounting is a necessary skill.
		C06	Identify and describe assets, liabilities and owners' equity
BBA-105	Introduction to Computer	C01	Identify the basic elements required in a computer system.
		C02	Produce electronic documents using various software applications.
		C03	Illustrate the role of the computer for personal and professional uses.
		C04	Understand the fundamental hardware components that make up a computer's hardware and the role of each of these components
		C05	Develop confidence for self-education and ability for life-long learning needed for Computer.
BBA II Semester			
BBA-201	Principles of Management	C01	Identify the basic elements required in a computer system.
		C02	Produce electronic documents using various software applications
		C03	Illustrate the role of the computer for personal and professional uses.
		C04	Understand the fundamental hardware components that make up a computer's hardware and the role of each of these components
		C05	Develop confidence for self education and ability for life-long learning needed for Computer.
BBA-202	Business Statistics	C01	Provide an understanding for the graduate business student on statistical concepts to include measurements of location and dispersion, probability, probability distributions, sampling, estimation, hypothesis testing, regression, and correlation analysis.
		C02	Describe and discuss the key terminology, concepts tools and techniques used in business statistical analysis
		C03	Critically evaluate the underlying assumptions of analysis tools
		C04	Understand and critically discuss the issues surrounding sampling and significance.
		C05	Discuss critically the uses and limitations of statistical analysis.
		C01	Define bookkeeping and accounting
		C02	Explain the general purposes and functions of accounting

BBA-203	Financial Accounting	C03	Explain the differences between management and financial accounting
		C04	Describe the main elements of financial accounting information – assets, liabilities, revenue and expenses identify the main financial statements and their purposes
BBA-204	Business Laws	C01	Demonstrate an understanding of the Legal Environment of Business
		C02	Apply basic legal knowledge to business transactions.
		C03	Communicate effectively using standard business and legal terminology.
		C04	Examine how businesses can be held liable in tort for the actions of their employees.
		C05	Understand the legal and fiscal structure of different forms of business organizations and their responsibilities as an CO employer
BBA-205	Indian Culture and Business Ethics	C01	Understand and define the concepts of integrity and ethics
		C02	Understand the ideas of values, ethics and morality in a multicultural context
		C03	Appraise some of the competing demands on business when scrutinizing the ethics of business activity.
		C04	Critically apply understanding of ethics of real–world contexts and gather and analyse information by way of undertaking a research project on a topic relevant to business ethics.
		C05	Discuss the corporate governance system influence performance, including both the performance of individual firms and the allocation of capital within a country
		C06	Relate the evolution of diverse ownership and governance structures across different economies
		C07	Evaluate theories of the firm, and explain how they are relevant to the diverse range of ownership structures that exist in reality

		C09	Describe why systematic way failure of corporate governance can lead to failure of confidence that could spread from individual firms to entire markets or economies
BBA III Semester			
BBA-301	Marketing Management	C01	Formulate strategies for developing new and/or modified products, concepts, goods and services that respond to evolving market needs.
		C02	Mastery of Marketing Content: Understand fundamental marketing concepts, theories, and principles in areas of marketing.
		C03	Apply the knowledge, concepts, tools necessary to overcome challenges, and issues of marketing in a changing technological landscape
		C04	Discuss Channel of Distribution, Marketing channels and agencies. Marketing research and Marketing information system
		C01	To enable the students to understand the Personnel

BBA-302	Personnel Management		Management and system at various levels in general and in certain specific industries or organizations
		C02	To help the students focus on and analyze the issues and strategies required to select and develop manpower resource.
		C03	To develop the understanding of the concept of personnel management and to understand its relevance in organizations.
		C04	Provide guidance and help employees identify their strengths and weaknesses
		C05	Design and evaluate strategies to increase the retention of personnel
BBA-303	Financial Management	C01	Demonstrate the applicability of the concept of Financial Management to understand the managerial Decisions and Corporate Capital Structure.
		C02	Analyze the complexities associated with management of cost of funds in the capital Structure.
		C03	Describe the financial environment within which organizations must operate
		C04	Critically evaluate the financial objectives of various types of organizations and the respective requirements of stakeholders
		C05	Discuss the function of capital markets.
BBA-304	Production Management	C01	Gaining knowledge about managing production processes.
		C02	To develop skills necessary to effectively analyze and synthesize the many inter-relationships inherent in complex social-economic productive system.
		C03	Better understanding of modern production techniques.
		C04	Better understanding of quality management
		C05	To gain an understanding and appreciation of the principles and applications relevant to the planning, design, and operations of manufacturing/service firms.
BBA-305	Business Organization	C01	To help the students gain understanding of the functions and responsibilities of managers
		C02	To provide them tools and techniques to be used in the performance of the managerial job
		C03	To enable them to analyze and understand the environment of the organization.
		C04	To help the students to develop cognizance of the importance of management principles.
		C05	Understand the complexities associated with management of human resources in the organizations and integrate the learning in handling these complexities.
BBA IV Semester			
		C01	Define, explain and illustrate a range of organizational behavior theories
		C02	Analyze the behavior of individuals and groups in organizations in terms of organizational behavior theories, models and concepts
		C03	Apply organizational behaviour concepts, models and theories to real life management situations through case analysis

BBA-401	Organizational Behavior	C04	Demonstrate a critical understanding of organizational behaviour theories and current empirical research associated with the topics covered in this course
		C05	Communicate effectively in oral and written forms about organizational behavior theories and their application using appropriate concepts, logic and rhetorical conventions
BBA-402	Business Policy	C01	To introduce the concepts of strategic management and understand its nature in competitive and institutional landscape
		C02	Identification, appreciation and interpretation of the critical challenges and opportunities before an organization
		C03	Students will be able to describe major theories, background work, concepts and research output in the field of strategic management.
		C04	Students will demonstrate a clear understanding of the concepts, tools & techniques used by executives in developing and executing strategies and will appreciate its integrative and interdisciplinary nature
		C05	Demonstrate the knowledge and abilities in formulating strategies and strategic plans
BBA-403	Quantitative Techniques	C01	Provides students with quantitative skills that are required to make business decisions
		C02	These skills involve using statistical, forecasting and estimation techniques.
		C03	Formulation and application of mathematical models in business decision making scenarios.
		C04	Understand why statistics are important for making business decisions (when to use quantitative analysis vs. “common sense”)
		C05	Demonstrate a sound knowledge of statistical terms
BBA-404	Research Methodology	C01	Demonstrate the ability to choose methods appropriate to research aims and objectives. Understand the limitations of particular research methods
		C02	Develop skills in qualitative and quantitative data analysis and presentation.
		C03	Demonstrate the ability to choose methods appropriate to research aims and objectives
		C04	Understand the limitations of particular research methods
		C05	Develop skills in qualitative and quantitative data analysis and presentation
BBA-405	Entrepreneurship	C01	Have the ability to discern distinct entrepreneurial traits
		C02	Know the parameters to assess opportunities and constraints for new business ideas
		C03	Understand the systematic process to select and screen a business idea
		C04	Design strategies for successful implementation of ideas
		C05	Understanding basic concepts in the area of entrepreneurship.
BBA V Semester			
		C01	Evaluate the role of information systems in today's

BBA- 501	Management Information System		competitive business environment.
		C02	Define an information system from both a technical and business perspective and distinguish between computer literacy and information systems literacy
		C03	Compare the processes of developing and implementing information systems.
		C04	Outline the role of the ethical, social, and security issues of information systems
		C05	Translate the role of information systems in organizations, the strategic management processes, with the implications for the management
BBA-502	Retail Concepts & Strategies	C01	Understand the functions of retail business and various retail formats and retail channels.
		C02	Understand the difference between Retail and Manufacturing Supply Chain
		C03	Understand, key drivers of retail supply chain and how to select a retail store location?
		C04	Analyze Retail Market and Financial Strategy including product pricing
		C05	Integrate the various Supply Chain partners and how to collaborate with them?
BBA-503	Comprehensive. Viva.	C01	Firm grounding of fundamentals of core courses of management.
		C02	The ability to put across the concepts with ease and good clarity
		C03	The ability to use the theoretical framework to solve specific management problems
		C04	Demonstrating one's competency in management courses.
		C05	The student is expected to face questions on any core courses of management as well as all the courses of his/her specific stream of elective and provide answer convincingly.
BSM-1	Consumer Behaviour & Service Marketing	C01	Demonstrate how knowledge of consumer behaviour can be applied to marketing.
		C02	Identify and explain factors which influence consumer behaviour.
		C03	Relate internal dynamics such as personality, perception, learning motivation and attitude to the choices consumers make.
		C04	Use appropriate research approaches including sampling, data collection and questionnaire design for specific marketing situations.
		C05	In a team, work effectively to prepare a research report on consumer behaviour issues within a specific context.
BSM-2	Advertising Management	C01	Examine advertising and its functions in relation to brand success;
		C02	Critically evaluate how creative concepts and executions will contribute to brand success;
		C03	Analyze advertising and branding techniques and apply them to a variety of different issues;
		C04	work effectively in teams to analyze and prepare presentations on advertising and brand management issues.
		C05	Two Step Flow of Communication Theory of

			Cognitive.
BSF-1	Working Capital Management	C01	Discover basic understanding of a company's working capital structure.
		C02	Identify how to manage working capital to increase profits.
		C03	Explore and establish basic knowledge of Working Capital Management policies.
		C04	Identify how to calculate the cash conversion cycle.
		C05	Explore and establish knowledge of working capital in the budgeting process and credit policy.
BSF-2	Investment Analysis & Portfolio Management	C01	Show a systematic knowledge, understanding and critical awareness of the theory.
		C02	Show a comprehensive understanding of the complex techniques applicable to solve problems
		C03	Show an ability to understand, select and apply appropriate methods in portfolio management
		C04	Demonstrate a comprehensive understanding of the complex current issues relevant to the investment market.
		C05	Apply corporate cash management, accounts receivable management, bank relations, and inventory management techniques to maximize the share holders' value.
BSHR-1	Human Resource Management	C01	To develop the understanding of the concept of human resource management and to understand its relevance in organizations
		C02	To develop necessary skill set for application of various HR issues.
		C03	To analyze the strategic issues and strategies required to select and develop manpower resources
		C04	To integrate the knowledge of HR concepts to take correct business decisions
		C05	Maintenance and Integration Functions: Employee grievances and their redressed, suggestion schemes, administration of discipline.
BSHR-2	Training and Development	C01	Explain the role of training and development in human resources management.
		C02	Describe the psychology of the learning process on which training is based.
		C03	Analyze the training needs of an organization
		C04	Assess, design, access and implement various methods, techniques and sources of training.
		C05	Evaluate the value of the training once completed from the individual employee and the organization's viewpoint.
BSBF-1	Introduction to Banking System	C01	Describe the context of banking: the financial system.
		C02	Explain the principles of banking.
		C03	Elucidate the broad functions of banks.
		C04	Elucidate the liability and asset portfolio management problems of Banks
		C05	Describe the components of the balance sheets of banks.
BSBF-2	Financial Institution and Markets	C01	Describe the different components of a financial system and their role.
		C02	Explain the recent developments in the Indian financial system.
		C03	Describe the instruments, participants and operation of the money market.

		C04	Describe the methods of issuing shares and role of intermediaries in the primary market.
		C05	To know about the financial institutions policies.
BBA-601	Environmental Management	C01	Understand key concepts from economic, political, and social analysis as they pertain to the design and evaluation of environmental policies and institutions.
		C02	Appreciate concepts and methods from ecological and physical sciences and their application in environmental problem solving
		C03	Appreciate the ethical, cross-cultural, and historical context of environmental issues and the links between human and natural systems.
		C04	Reflect critically about their roles and identities as citizens, consumers and environmental actors in a complex, interconnected world
		C05	Discuss of Environmental Pollution Definition, Causes, effects and control measures of:- Air pollution, Water pollution , Soil pollution
BBA-602	E-Commerce	C01	Understand the basic concepts and technologies used in the field of management information systems;
		C02	Have the knowledge of the different types of management information systems
		C03	Understand the processes of developing and implementing information systems
		C04	Be aware of the ethical, social, and security issues of information systems;
		C05	Analyzing branding and pricing strategies, using and determining the effectiveness of market research. assessing their effects
BBA-603	Field Work and Viva-VCOe	C01	Employ the fundamental knowledge to develop mathematical models and to infer useful Management insights.
		C02	Analyze a situation or mechanical system and identify possible ideas for practical implementation.
		C03	Design Management field to meet the requirements specified in a given application.
		C04	Identify manageable sub-problems from complex situations for quicker solutions through rigorous research methodology
		C05	To nurture the students with basics of management concepts that will enable them to solve real business problems
		C06	To develop professional skills for immediate employment and respond amicably to the changing environment through acquired skills & competencies
		C07	Possess analytical, decision making skills needed to take appropriate decisions in business and managerial situations. 8. To ensure that the managers understand and demonstrate professional responsibilities toward the nature and mankind.
		C08	To encourage and train the students to start independent ventures with rigorous research and Innovation
		C09	To groom the students to understand group dynamics and work in tandem with the organizational goals and objectives
BSM-3		C01	Have developed an understanding of major issues related to international marketing
		C02	Have developed skills in researching and analyzing

	International Marketing		trends in global markets and in modern marketing practice
		C03	Be able to assess an organization's ability to enter and compete in international markets
		C04	To know about various strategies of international marketing.
		C05	International Marketing mix-Identification of markets ,Product policy

- PO6.** To provide in-depth understanding of all core areas specifically Advanced Accounting, International Accounting, Management, Security Market Operations and Business Environment, Research Methodology and Tax planning.

PROGRAMME SPECIFIC OUTCOME

- PSO1.** After Completing Masters in Commerce students are able to
- PSO 2.** Develop an ability to apply knowledge acquired in problem solving.
- PSO 3.**Ability to work in teams with enhanced interpersonal skills and communication.
- PSO 4.**The students can work in different domains like Accounting, Taxation, HRM, Banking and Administration. Ability to start their own business.
- PSO5** Ability to work in MNCs as well as pvt, and public companies.
- PSO 6.**To develop team work, leadership and managerial and administrative skills.
- PSO 7.**Students can go further for professional courses like CA/ CS/CMA/CFA

Course Outcomes (COs)

Semester-1

Management Concepts MC-101

- CO 1:** Upon completion of the course, students will be able to have clear understanding of managerial functions like planning, and have same basic knowledge on international aspect of management
- CO 2:** To understand the planning process in the organization
- CO 3:** To understand the concept of organization
- CO 4:** Demonstrate the ability to directing, leadership and communicate effectively
- CO 5:** To analyze issues and formulate best control methods

Business Environment MC-102

- CO 1:** Outline how an entity operates in a business environment
- CO 2:** Describe how financial information is utilized in business
- CO 3:** Explain the legal framework that regulates a business

Advanced Accounting MC-103

CO 1: have extensive knowledge in the field of Accountancy and other commercial activities in the very field.

CO 2: Student can apply for the UGC-NET or JRF exam. After these exams, they can go for a teaching or research area.

CO 3: Applicants also have the option of joining banking, investment and insurance areas which cover a wide range of jobs in investment banks, commercial banks and building societies, broking firms, independent financial advisers, insurance and reinsurance companies.

Cost Analysis and Control MC-104

CO 1: Understand various costing systems

CO 2: Analyse and provide recommendations to improve the operations of organizations through the application of Cost and Management accounting techniques

CO 3: Evaluate the costs and benefits of different conventional and contemporary costing systems

Semester –II

Corporate Legal Frame Work MC-201

CO 1: Demonstrate an understanding of the Legal Environment of Business.

CO 2: Understand the various provisions of Company Law

CO 3: Demonstrate the use analytical skills in case study analysis.

Corporate Legal Frame Work MC-201

CO1: Demonstrate the applicability of the concept of organizational behavior to understand the behavior of people in the organization.

CO 2: Demonstrate the applicability of analyzing the complexities associated with the management of individual behavior in the organization.

CO 3: Demonstrate how the organizational behavior can integrate in understanding the motivation (why) behind behavior of people in the organization.

Advanced Statistical Analysis MC-203

CO 1: Describe and discuss the key terminology, concept tools and techniques used in business statistical analysis

CO 2: Understand and critically discuss the issues surrounding sampling and significance

CO 3: Conduct statistical analysis of data

Functional Management MC-204

CO 1: Gain understanding of functions and responsibilities of managers

CO 2: Use tools and techniques to be used in the performance of managerial job

CO 3: Understand the complexities associated with management of Finance, Marketing, Production etc in the organization and integrate the learning in handling these complexities.

Semester –III

Tax Planning and Management MC-301

CO 1: To acquaint the students with theoretical and practical knowledge of tax planning and management techniques.

CO 2: To familiarize the students with major and latest provisions of the India tax laws and related judicial pronouncements pertaining to various assesses with a view to derive maximum possible tax benefits admissible under the law

Entrepreneurship Skill Development MC-302

CO 1: The purpose of the course is that the students acquire necessary knowledge and skills required for organizing and carrying out entrepreneurial activities, to develop the ability of analysing and understanding business situations in which entrepreneurs act and to master the knowledge necessary to plan entrepreneurial activities

Accounting for Managerial Decisions MC-303

CO 1: This course is an introduction to the fundamental concepts of managerial accounting appropriate for all organizations.

CO 2: The emphasis is on the identification and assignment of product costs, operation budgeting and planning, costs control, and management decision making.

Managerial Economics MC-304

CO 1: The main objective of this course is to equip students with the necessary theory and techniques and the ability to apply them in order to inform and enhance managerial decision making.

CO 2: Students will be able to use Economic tools to explain the optimal allocation of resources within the firm

CO3: Students will be able to use the tools of economic theory to explain optimal production and pricing decisions by the firm in each market structure

Specialisation in Direct Taxation

Direct Taxation-I MCSDT-304

CO 1: The course aims to help students to comprehend the basic principles of the laws governing Direct taxes.

CO 2: It Prepares students for technical training in taxation and offers a strong base in the field of Income Tax

Specialisation in Accounting & Finance

Accounting & Finance-I MCSAF-304

CO 1: It is the course that teaches the fundamentals of accounting and finance practices.

CO 2: Through this course, an individual can learn the technical skills associated with many of the procedure's of finance analysis and accounting.

CO 3: This course will benefit the candidates with the career options like becoming the finance controller, treasurer, finance officer, credit and cash manager, risk manager etc.

Specialisation in Banking & Finance

Banking & Finance -I MCSBF-304

CO 1: The course provides basic knowledge in the field of banking and finance. The course offers the basics of banking, finance, regulations, Banking law, accounting etc.

CO 2: Postgraduates of M.Com with specialization in Banking and Finance have a wide range of job opportunities like Banks, Business Schools, Credit organizations, Consultancies, Economic consulting jobs, Indian civil services, health departments, Insurance industry, securities industry and investments

Specialisation in Marketing

Marketing-I MCSM-304

CO 1: Marketing is an undergraduate programme that prepares students for professional careers in the field of marketing.

CO 2: It emphasizes on the techniques and methods of managing and planning for marketing. Students proceed through the curriculum in a planned sequence that culminates with the development of a marketing plan.

CO 3: Postgraduates with this degree have an opportunity for the industries like Business Consultancies, Educational Institutes, Industrial Houses, Public Accounting Firms, Policy Planning, Foreign Trade, Banks, Budget Planning, Inventory Control, Merchant Banking, and Marketing.

Specialisation in Business Management

Business Management-I MCSBM-304

CO 1: The objective of this course is to develop a holistic perspective of enterprise, and critical analysis from the point of view of general management.

CO 2: In this course, students understand how organizations work, how they have to manage in organizations, and how they should interact with local and national organizations.

CO 3: These Postgraduates work in positions like a Business analyst, data analyst, management analyst, marketing manager, production manager, etc.

Specialisation in Advanced Economic Analysis-I

Advanced Economics Analysis-I MCSAEA-304

CO 1: The course focuses on building a business sense in eligible students to become specialities in fields like cost accounting and organizational operations

CO 2: These Postgraduates work in positions like a Stocks Broker, Economic Analyst, Business Analyst, Analytic Manager

Specialisation in E-Commerce

E-Commerce-I MCSEC-304

CO 1: The subject aims to familiarize the student with the basic concept of e-commerce and to provide him/her with the knowledge of planning, scheduling and controlling a successful e- business.

CO 2: With the IT industry growing rapidly, B.Com E-Commerce graduates have immense opportunities to build stable and lucrative opportunities.

CO 3: Some of the areas of employment available to M.Com E-Commerce Postgraduates are Banking, Accounting and Finance Sectors, Networking and E-Commerce Organisations.

Semester –IV

Consumer Behaviour MC-401

CO1: To understand consumer behaviour in an informed and systematic way.

CO 2: To analyse personal, social-cultural, and environmental dimensions that influence consumer decisions making.

CO 3: Consumer Behaviour course enables a student to gain a comprehensive understanding of consumer behaviour & market research and their relevance in gaining consumer insight.
