:Course Outcomes (COs):

At the end of I-BHMS course student should able to understand the knowledge of Anatomy, Physiology, Biochemistry, Homoeopathic Pharmacy , Homoeopathic Materia Medica and Organon of Medicine.

- **Department of Anatomy : CourseOutcomes**

CO1. Student should have sound knowledge about Gross structure of Human Body, General Anatomy , Anatomy of each and every aspect of human body.

CO2. Students Should be able to understand structure of Cell and Tissue

CO3. Students Should understand knowledge about applied anatomy to develop clinical skill.

CO4. Student should understand Knowledge about Embryology and Genetics.

CO5. Understand the practical aspect of Anatomy like Human body dissection, demonstration of specimens.

CO6. Co-relation of anatomy with Physiology .

CO7. Should understand radiological and Surface anatomy.

SUBJECT CODE:- 101

- **Physiology : CourseOutcomes**

CO1. Should be able to understand all systems of human body with their functions.

CO2. Students should be able to understand inter-relation of systems of human body.

CO3. Students should understand applied and clinical physiology to develop clinical skill.

CO4. Should understand basic experiments about hematological investigations, biochemical analysis.

CO4. Students should be able to demonstrate code of ethics duties and rights of medical practitioner.

CO5. Students should study toxicology- study of poisons their effects and management.

SUBJECT CODE:- 202

- **Materia Medica : Courseoutcomes**

CO1. Students should have study of various drugs of Homoeopathic Materia Medica as per prescribed syllabus.

CO2. Group study of drugs.

CO3. Various methods of studying materia medica like comparative materia medica.

SUBJECT CODE:- 203

- **Organon of Medicine : Courseoutcomes**

CO1. Knowledge about Case taking of patient to build up portrait of disease.

CO2. Understand Symptomatology

CO3. Practical/clinical training about Processing of case as per homeopathic point of view.

SUBJECT CODE:- 204

- **Surgery : Courseoutcomes**

CO1. Students should understand surgical disorders.

CO2. Knowledge about how to reach upto surgical diagnosis of disease.

CO3. Homeopathic Therapeutics of surgical disorders.

CO4. Recording of surgical cases.

- **Obstetrics and Gynaecology : CourseOutcomes**

- **Community Medicine : CourseOutcomes**

CO1. Students should be able to understand the role of prevention in treating the diseases.

CO2. Study of Immunization, Disinfection and prevention of diseases.

CO3. National Health Problems and National Health programs.

CO4. Should be able to describe concepts of epidemiology , biostatistics and family planning.

CO5. Socio-economical and environmental aspect of disease.

CO6. Role of Homoeopathy in community medicine.

CO7. Concept and Health Disease and Cure Homoeopathic Point of view

CO8. Students should understand responsibilities towards community health and disease

SUBJECT CODE:- 402

- **Repertory : CourseOutcomes**

CO1. Case Taking – Students should understand how to take detail case homoeopathic point of view

CO2. Should understand scope and limitations of Homoeopathic Repertory

CO3. Should have understanding about Construction and use of various repertories like Kents, Bogers, Boeininghausens repertory and methods of repertorization

CO4. Students should understand various repertory softwares to process the case and how to repertories it by computerized repertorization

CO5. Gradation , Evaluation, steps and methods of repertorization

CO6. Should have understanding about Rubrics , cross references and interpretation of symptoms into rubrics for repertorization purpose.

SUBJECT CODE:- 404
