Area of Expertise (100 words)			
My research interest area is phytochemical studies and phytopharmaceutical developments. I regularly engaged in teaching in UG and PG as well as in research to the PG & Ph.D students. Now a days, research is very significant and important for the students because it helps students for the deeply analysis of any topic or any things. I have focus to create research environment and innovative learning techniques and Students' minds should be developed in a way that solves their problems.
