

Construction Safety

Unit-1

Major activities at construction site :-

An Introduction

Unit -2

Material and handling equipment handling

Unit-3

Machinery handling and electrical safety

Unit-4

Hot work Execution and common accident at construction site

Unit -5

Safety while working on height

Fire Engineering

Unit-1

Chemical Science

Unit-2

Fire extinguisher

Hydrant

Pump or Primer

Unit-3

Water Relaying

Fixed extinguishing fire hydrant

Unit-4

Water Sprinkler system

Mechanical foam

Fire fighting rule

Unit-5

First aid

Standard test

Industrial Safety

Unit-1

1. Introduction of Safety
 - A. Fundamental of Safety
 - B. Promotions of safety
2. Accidents
 - a. Causes of accidents
 - b. Types of accidents
 - c. Preventive measures

Unit-2

2. Personal protective equipment
 - A. Introduction
 - B. Standard Used
3. Work permit

Unit-3

1. Industrial Psychological
2. Training and education
Emergency control plan

Unit-4

Gais silender
Confined space

Unit-5

Job Safety Analysis
Duties of safety officers
Factory Act 1948
Health provisions
Safety Provisions
Hazards Provision
Process Safety Management
Electricity Road Safety
