RKDF UNIVERSITY

Airport Bypass Road, Gandhi Nagar, Bhopal - 462033

Website : www.rkdf.ac.in Email : info@rkdf.ac.in

ABOUT BHOPAL

Bhopal, the capital of Madhya Pradesh, is a fascinating amalgam of scenic beauty, historic city and urban planning. It is famous for its lakes and gardens, and is also known as: **The City Of Lakes**". The two lakes of Bhopal still dominate the city, border along the shores are the old city with its market places, magnificent mosques and the new city with its verdant, exquisitely laid out parks, gardens, broad avenues and streamlines modern buildings. Bhojpur, Bhimbhetka, Tribal Museum, boat rides in upper lake, Van Vihar etc. are some of the attractions in and around Bhopal.

ABOUT THE SEMINAR

Across India gender inequality results in unequal opportunities, and while it impacts on the lives of both genders, statistically it is girls that are the most disadvantaged. In India girls and boys experience adolescence differently. While boys tend to experience greater freedom, girls tend to face extensive limitations on their ability to move freely and to make decisions affecting their work, education, marriage and social relationships. Some Indian women are global leaders and powerful voices in diverse fields but most women and girls in India do not fully enjoy many of their rights due to deeply entrenched patriarchal views, norms, traditions and structures. India will not fully develop unless both girls and boys are equally supported to reach their full potential. With the prevalence of gender discrimination, and social norms and practices, girls become exposed to the possibility of child marriage, teenage pregnancy, child domestic work, poor education and health, sexual abuse, exploitation and violence. Many of these manifestations will not change unless girls are valued more.

It is critical to enhance the value of girls by investing in and empowering them, with education, life skills, sport and much more. By increasing the value of girls we can collectively contribute to the achievement of specific results, increasing access to education, reducing anaemia, ending child marriage & eliminating gender-biased sex selection. Changing the value of girls has to include men, women and boys. Only when society's perception changes, will the rights of all the girls and all the boys in India be fulfilled. The seminar will be helpful in educating about the different sectors where females face discrimination and what all can be done to empower them.
