

COURSE CONTENTS

- Python
- Object-Oriented Programming
- Calculus & Linear Algebra (NumPy, SciPy)
- Probability & Statistics (Distributions, Regression Analysis, Stochastic Process, Estimation, Hypotheses Testing, Non-Parametric Statistics, Time-Series Analysis, Multivariate Analysis)
- Data Preprocessing and Manipulation (Pandas)
- Machine Learning Algorithms & Libraries (Scikit-learn, TensorFlow, PyTorch)
- Deep Learning (ANN, CNN, RNN)
- Data Analysis and Visualization (Matplotlib, Seaborn)
- Big Data Analysis (Spark, PySpark)
- Text Mining & NLP (NLTK, Textblob)
- Case Studies & Research Directions

FEE

Registration Fee: ₹ 100/-

For further information, feel free to contact:

Mr. Paritosh Goldar (9074158098)

RKDF University

Three Months Value Added Course

on

Python, Machine Learning and Data Science

(1st Feb – 29th Apr 2023)

under

RKDF Incubation Center

Organized By

Department of Computer Science & Engineering
Ram Krishna Dharmarth Foundation University
Bhopal, Madhya Pradesh, India - 462033

<https://www.rkdf.ac.in>

Email: rkdf.incubationcenter@gmail.com

CHIEF PATRON

Hon'ble Dr. Sadhna Kapoor Chancellor, RKDF University

PATRON

Hon'ble Mr. Siddharth Kapoor Pro-Chancellor, RKDF University

GENERAL CHAIR

Prof. Vijay Kumar Agrawal Vice Chancellor, RKDF University

Dr. Narendra Lariya Registrar, RKDF University

Dr. B.N. Singh Director General Management, RKDF University

Dr. V.K. Sethi Director General Research, RKDF University

Dr. Sunil Patil Examination Controller, RKDF University

Dr. Ratnesh Jain Dean Student Welfare (DSW), RKDF University

Dr. R.S. Pippal Professor, RKDF University

Dr. C.B.S. Dangi Dean, Faculty of Science, RKDF University

PROGRAM ORGANIZER

Dr. Sharad Gangele Principal & Professor, RKDF University

Dr. Amitesh Paul Professor, RKDF University

Dr. Ritesh Sadiwala Associate Professor, RKDF University

Dr. Sandeep Dubey Associate Professor, RKDF University

Dr. Puneet Dwivedi Associate Professor, RKDF University

Mr. Paritosh Goldar Assistant Professor, RKDF University

Mr. Gagan Sharma Assistant Professor, RKDF University

Mr. Rajeev Das Assistant Professor, RKDF University

Mr. Ajit Kumar Tiwari Assistant Professor, RKDF University

Mr. Ankush Shrivastava Assistant Professor, RKDF University

Mr. Abhinav Shukla Assistant Professor, RKDF University

Mr. Vishal Shrivastava Assistant Professor, RKDF University

Mr. Arun Rai Training & Placement Officer, RKDF University

Mr. Manoj Agrawal Project Manager, RKDF University

Mr. Narendra Parmar Assistant Professor, RKDF University

ABOUT THE UNIVERSITY

Ram Krishna Dharmarth Foundation (RKDF) University, established in 2011, is one of the six Universities of RKDF Group, the largest education group in central India. The University since its inception has been maintaining a seamless synergy between Science and Engineering and we are targeting towards breaking molds of traditional departmental boundaries through interdisciplinary approach in Teaching and Research. "Sir JC Bose Interdisciplinary Research Park" has been setup at the University for R&D in Solar Thermal, Carbon Capture & Sequestration, Thermo-electric application for Army, Bio-diesel production through Algae roots, where faculties from Engineering, Biotechnology, Agriculture and Pharmacy may work on this frontier area of technology innovation. To this end, we are striving for creating knowledge network and connections to National and Global bodies, International centers of higher learning, Industries for Skill Development and society at large for sharing the fruits of knowledge with the masses.

ABOUT THE COURSE

This value added course is designed to provide an exposure to the students about Python programming, Machine Learning and Data Science. Students will learn about programming concepts and Machine Learning techniques that can be applied to data analysis. Hands-on live training, practice, and implementation will help the students to gain confidence in programming and Machine Learning techniques. This course is also useful for research scholars and engineering/science students who are interested in placement.

COURSE OBJECTIVES

By the end of the course, students will be able:

- To understand programming concept and logic designing in Python.
- To understand mathematics behind machine learning and deep learning algorithms.
- To understand various python libraries used for machine learning and data analysis.
- To work in real-world projects.

COURSE OUTCOMES

- Conceptual clarity of programming and logic design in Python.
- Mathematical & Statistical concepts and libraries used in data analysis.
- Practical skills to work in projects.
