(Engineering) in any branch of engineering recognized by AICTE / UGC, securing a minimum of 50% marks in aggregate of all semesters or equivalent in term of CGPA grade are eligible to apply for admission to the course. For SC / ST candidates, a relaxation of 5% in aggregate as per state government rules.

MBA (POWER & ENERGY MANAGEMENT)

SYLLABUS

Semester 1:

- Management Concepts & Applications
- Business Environment
- Managerial Economics
- Organizational Behavior
- Accounting for Managers
- Business Communication Skills
- Quantitative Analysis
- Energy Resources Conversions and Power Plant Systems

Semester 2:

- Financial Management
- Marketing Management
- Human Resources Management
- Operations and Supply Chain Management
- Business Research Methods
- Operations Research
- Electricity Industry Structure and Regulations
- Management of Power Transmission and Distribution

Semester 3:

- Strategic Management
- Management of Information Systems
- Business Legislation
- Power Environment Interface

Management (Optional)

- Project Management and Infrastructure Finance
- Management of Financial Institutions & Services
- Organizational Change and Development
- Performance Management

Power (Optional)

- Power Station Management
- Risk and Hazard Management
- Hydro Power Resources Management
- Energy Conservation and Energy Audit

Semester 4:

- Entrepreneurship
- E-Commerce
- Power Pricing and Power Purchase Agreements
- Integrated Energy Management and Power Planning

Management (Optional)

- Security Analysis and Portfolio Management
- Financial Derivatives
- Taxation Laws and Planning
- Talent Management
- Customer Relationship Management

Power (Optional)

- Renewable Energy
- Maintenance Management
- Global Power Business
- Rural Energy Development
