

Message from the desk of VC

Higher education in the country is at the threshold of major Institutional reforms targeted towards cutting edge R&D and innovations. The major challenges before the upcoming and emerging Universities apart from quality of teaching and learning process are the need of experienced and enlightened faculty. Network of knowledge management, creative teaching & research, strong industry interface and innovative curriculum are the need of the day. RKDF University is marching towards meeting these challenges to become a 'Global Knowledge Enterprise'. The University has a seamless synergy between Science & Engineering and we are targetting towards breaking molds of traditional departmental boundaries through interdisciplinary approach in teaching and research. We are also striving for creating knowledge network and connections to National & Global professional bodies, International Centers of higher learning, Industries for skill development and the Society for sharing fruits of knowledge with the masses.

I invite the entire RKDF family to strengthen hands of Management in building this University a real knowledge enterprise. I am available 24x7 for your suggestions and feedback on my mail

With Ward Regards

(Dr. V. K. Sethi)
